

ANSWERS YOU NEED.
WHEN YOU NEED THEM.

Working with colleges and universities is a focus for American Structurepoint. Our Investigative Group concentrates their efforts on the evaluation and assessment of new and existing higher education facilities throughout the Midwest.

With 500 professionals working in-house across 11 disciplines, American Structurepoint's award-winning team understands how to successfully move your project from concept to completion. We offer a specialized team of engineers, architects, and roofing professionals in our Investigative Group who work together to evaluate new and existing facilities. For colleges and universities, we also help administrators and facility managers establish budgets and control spending by prioritizing maintenance and repairs. Whether it's designing new facilities or helping you maintain what you currently have, American Structurepoint is your single point of contact.
