

SPOTLIGHTING OUR PEOPLE

CLEVELAND TEAM

With approximately 600 professionals working across 11 disciplines, American Structurepoint improves the quality of life for the communities we serve. Our talented team of professionals can help find hidden challenges and opportunities in every project, which leads to innovative outcomes.

Our Cleveland design center has steadily grown since it opened in 2019. The dynamic team of seasoned professionals provides innovative solutions for a variety of projects across northeast Ohio.

Whether it's the complete pavement replacement of nearly 8 miles of I-90 in Cuyahoga County; the improvements to West Smith Road in Medina to improve pedestrian access, water distribution, and connectivity; or the expansion of

the wastewater treatment plant in Norwalk, American Structurepoint is offering solutions to build and better communities.

American Structurepoint's Cleveland team recently moved to a new space in its design center due to our strategic growth. With a larger, more open footprint, our team will be able to better serve our clients and expand the services we offer.

Visit [Structurepoint.com/careers](https://www.structurepoint.com/careers) if you'd like to be a part of our growing team in Cleveland. With a diverse portfolio of projects, an environment to learn while doing, and opportunities for career growth, American Structurepoint is the perfect place to start and grow your career.

AMERICAN STRUCTUREPOINT IS A FULL-SERVICE ARCHITECTURE AND ENGINEERING FIRM.
