

SPOTLIGHTING OUR PEOPLE

CIVIL ENGINEERING

Leaders across the country are looking at ways to bring new development and jobs to their communities. Preparing a site for development is an intricate puzzle, and American Structurepoint's Civil Engineering Group helps find hidden challenges and opportunities, which leads to better outcomes.

Our experts partner with clients across the country to help prepare a site for development. Whether it's designing roads and utility lines or handling permitting and due diligence efforts, we are able to draw on a deep well of resources to solve any challenge. American Structurepoint's civil engineers explore numerous options for a site layout, delivering a more comprehensive plan that provides long-term value for our clients.

With a portfolio of projects like Rickenbacker Exchange at Commercial Park in Ohio, Eleven Park in Indianapolis, and the new 9,000-acre+ Limitless Exploration/Advanced Pace (LEAP) district in Lebanon, Indiana, American Structurepoint is involved in major developments across the Midwest. We are also experts at multi-family housing like the Whiskey River apartments in Lawrenceburg, Indiana, or sports facilities like TopGolf in Fishers, Indiana.

With a commitment to professional development, the ability to work on a variety of projects, and a culture of learning, American Structurepoint's civil engineering team is a great place to start and grow your career.

AMERICAN STRUCTUREPOINT IS A FULL-SERVICE ARCHITECTURE AND ENGINEERING FIRM.
