

# INVESTIGATIVE

## SERVICES

- Catastrophe Response
- Property Condition Assessments
- Fire Investigation
- Forensic Engineering
- Building Enclosure Commissioning
- Expert Witness + Dispute Resolution

Rest easy knowing our investigative team is handling your property or liability claim investigation.

American Structurepoint has served as the single source of contact for public and private clients to handle investigative needs. Our staff of licensed engineers, structural engineers, and architects will work hand-in-hand with you from site investigation to writing and filing a report. We provide investigative and forensic services for insurance companies, claims adjusters, property managers, building owners, individual owners, real estate professionals, attorneys, lenders, real estate investment trusts, public utilities, energy providers, and others.
